AM Clean Sound

About

Way back in 1971, a young Anders Moesgaard was inspecting the damage incurred by his Roxy Music records after his older brother's rambunctious partying rendered them unplayable. Realizing that the product he needed to whip his prized collection back into acceptable shape wasn't on the market, he started to experiment in his parent's garage. After a lengthy trial and error process, the Danish teenager finally arrived at the cleaning solution that formed the foundation of AM.

Today, the spirit of enthusiasm and ingenuity lives on in Anders Moesgaard's two sons, Jacob and Frederik Moesgaard. Informed by progressive, contemporary culture, the lasting legacy of Danish design, and an unbridled fascination with technology, the next generation of AM is immersed in the contemporary, physical listening experience.

How we make it fun

Support | support@sfdistributions.com

SF Distributions supports their retailers in several ways. We provide you with a personal B2B account where you can find all the technical information you need to start selling Newgate. Our support team is also there to help you with any questions you may have. SF Distributions also gladly invites you to our showroom in Utrecht.

Logistics | logistics@sfdistributions.com

Your orders are shipped from our in-house warehouse in the Netherlands, Utrecht. We ship 5 days a week from Monday till Friday.

Sales | orders@sfdistributions.com

Our team of experienced salespeople at SF Distributions understand the European market well. Their product knowledge enables them to offer guidance and information. They are here to support you through the whole process.

Marketing | marketing@sfdistributions.com

At SF Distributions we love to create content. In combination with product descriptions, we want to provide you as a retailer with all the tools to make your own customers happy.

Administration | admin@sfdistributions.com

In the B2B portal you can find your invoices & order confirmations. Our administration is available for all your questions.
